PANELIST: ENTERPRISE DATA MANAGEMENT
AND THE FUTURE ROLE OF BIG DATA

Thomas J. Pierpoint
Director, Enterprise Software Applications - Retired
Exelon

Tom Pierpoint recently retired after 30 years as a Director at Pepco Holdings, an Exelon company. Exelon is a FORTUNE 100 company that employs approximately 35,000 people with revenues of \$34.5 billion.

Tom was the leader for the Pepco Incident Management Team that responds to emergency events in the Washington DC metro area. This team can be scaled to the specific emergency event and consists of nearly 4,000 company employees supplemented by hundreds of external contractors.

Tom also led a team that manages the enterprise software applications for three of the six electric and gas utilities at Exelon. These enterprise software applications support asset management, engineering, operations, customer care, government relations, outage management and emergency management.

Tom has also consulted and worked in other industries including Security, Medical Research, Electronics, Railroad, Airline, Industry Associations, and Manufacturing.

Tom is currently active with the IEEE and is vice chair of the EPC (Energy Policy Committee) and the PES ITSTF (Industry Technical Support Task Force).

Tom holds an Advanced Executive Certificate from the MIT Sloan School of Management. Tom also holds a Master's in Business Administration, a Master's in Project Management, graduate work in Software Engineering, a Bachelor's in Electrical Engineering Technology and an Associate in Electronics Technology.
