

2017 Paper Competition Results

On October 24, 2017, the winner of the Next Generation Network (NGN) Paper Competition was determined. Each contestant was graded on a number of different categories, with a maximum of 500 points that could be earned. The finalists came within only a few points of each other. We are proud to announce our 2017 Grand Prize Winner, Reynold Cornell!

Reynold is an up and coming engineer with AEP and currently works in their Asset Health Center. Reynold's winning paper was entitled "The Asset Health Center, Implementation of Online Monitoring and the Grid of the Future." Reynold was awarded an honorary plaque from the Next Generation Network and will have travel and registration costs covered for our 2018 CIGRE General Session in Paris!

TOP FIVE

[Winner] Reynold Cornell (AEP)

Alyssa Blumenthal - ConEd

Jason Sexauer - PJM

Dr. Hesen Liu - Electric Transmission Field Operations

Genna Demijolla - GE Energy Consulting

COMPETITION PRIZES

The Top Five were each awarded registration to the 2017 Grid of the Future Symposium, where each participant presented their paper.

The Grand Prize winner was additionally awarded an honorary plaque from the Next Generation Network and will have travel and registration costs covered for our 2018 CIGRE General Session in Paris!
