Tricia Breeger is General Manager of the Mitsubishi Electric Power Products Inc. (MEPPI) Uninterruptible Power Supply (UPS) Division, where she leads one of MEPPI's largest business units serving the North American critical power market with the design, marketing, sales, manufacture and service of UPS systems.

MEPPI is a US affiliate of the Mitsubishi Electric Corporation of Japan and serves the North American power systems, critical power and rail transportation industries with electrical and electronic products, systems and services.

Previously, Breeger was the General Manager of MEPPI's Electrical Distribution Division specializing in the design, manufacture and sale of medium voltage switchgear and power electronics for Utility power distribution grids. In her 19 years at MEPPI, Breeger has held a number of leadership roles and has been instrumental to MEPPI's business growth within two rapidly changing market segments – Power Distribution and Critical Power.

Breeger received a BS in Mechanical Engineering from the University of Arkansas and an MBA from Robert Morris University. She is dedicated to the advancement of manufacturing within the greater Pittsburgh region and serves on the Board of Directors for Catalyst Connection, a Western Pennsylvania non-profit supporting the manufacturing sector.

Breeger is a passionate leader with an emphasis on workplace safety, customer commitments, business development, product quality and advanced manufacturing. She resides in Pittsburgh, Pennsylvania with her husband and three children.
