Title of Webinar: Off-Shore Wind Projects: Items to Study and Confirm

Date and Time: September 26, 1:00 pm CDT | 2:00 pm EDT

Speaker: Mark McVey, ET Equipment & Technical Sr. Strategic Advisor, Dominion Energy

Abstract: In this presentation, Mark will give an overview of items to study and confirm for on-shoring power from off-shore wind projects. The speaker will share his recent experiences based on his ongoing involvement in off-shore wind projects and with industry working groups and committees.

Speaker Bio: Mark McVey is an ET Equipment & Technical Sr. Strategic Advisor with Dominion Energy with over 38 years of experience. He is currently part of Operations Engineering where he provides technical support to all business units in Power Delivery, is an asset manager for major equipment, and Subject Matter Expert for Flexible AC Transmission devices. Over his career with Dominion Energy, Mark has held positions in Substations Engineering, Power Quality, Division and District Operations Supervisor roles, and Field Engineering Control Operations. Mark holds a B.S. in Electrical Engineering from Virginia Tech.

Mark has made significant contributions to the technical work of CIGRE, notably in the areas of Study Committee B3 Substations and A3 High Voltage Equipment. Mark has presented six tutorials at various CIGRE Symposia and Paris Sessions focused on AIS Design for Severe Climates, Guidelines for Safe Work Methods in Substations, and Fundamentals of Grounding. He has authored or coauthored over 18 papers, articles, and handbooks, and several CIGRE publications.

Mark is an IEEE Senior Member since 2013 where he has chaired various working groups. He is the IEC USNC Appointed Chair and Advisor to TC 33 All Power Capacitor and Their Applications 2018-2022 and was appointed Expert Emiratis TC 33 in 2019.

Mark is the recipient of the CIGRE Pioneer 2020 E-Session Achievement Award, the USNC CIGRE Atwood Associates Award 2018, CIGRE Technical Council Award B3 2018 Paris, and CIGRE Distinguished Member 2022. He was the 2023 recipient of the USNC CIGRE Dale Douglas Award for Technical Achievement.

Duration of webinar: 1 hour

This event is open to ALL professionals. We encourage you to register using the link provided below.

Date and Time: September 26, 1:00 pm CDT | 2:00 pm EDT

Speaker: Mark McVey, ET Equipment & Technical Sr. Strategic Advisor, Dominion Energy
