- Access to the CIGRE library, ELECTRA magazine, CIGRE SCIENCE AND ENGINEERING articles, and papers from the GOTF Symposium, with up to 50 employee accounts included
- Invitation to present at technical webinars
- Opportunity to extend collective membership to academic institutions

### Industry-Wide Recognition

- Listing on the CIGRE USNC website
- Recognition in the CIGRE USNC newsletter

### USNC Grid of the Future (GOTF) Symposium

- Registrations for the Symposium included with membership, based on membership level
- Special acknowledgment throughout the event

### Defining the Future Direction of our Industry

- Having a seat on the USNC Executive Committee alongside industry leaders
- Four votes at USNC member meetings, either in person or by proxy
- Six votes at the Paris General Assembly meeting

## Membership Levels

**Principal Membership** is designed for organizations with 500 or fewer employees.

- Benefits include 10 eCIGRE accounts and 6-member rate registrations at the GOTF Symposium.
- The cost is \$2,500 per year.

**Sustaining Membership** targets mid-level corporations, including ISOs and engineering firms with more than 500 employees.

- Benefits include 50 eCIGRE accounts, 7-member rate registrations at the GOTF Symposium, and recognition in the CIGRE USNC newsletter.
- The cost is \$3,500 per year.

**Patron Membership** is for large corporations.

- Benefits include 50 eCIGRE accounts, 8-member rate registrations at the GOTF Symposium, and recognition in the CIGRE USNC newsletter.
- The cost is \$5,000 per year.

## Major Conferences & Meetings

CIGRE sponsors multiple conferences, including the biennial Paris Meeting attended by utility and supplier executives, featuring a CEO forum and sessions like the global Black Outs report. In the US, the National Committee hosts the annual Grid of the Future Symposium, offering 100 paper presentations, industry panels, tutorials, and technical tours.

## About CIGRE

CIGRE is a global community dedicated to the collaborative development and sharing of industry best practices, with over 100 years of history. CIGRE United States, established in 1921, is the US National Committee [USNC].

CIGRE USNC participates in over 200 technical working groups producing high-quality technical bulletins and books accessible to members. It also supports the Next Generation Network for young professionals and the Women in Energy Group. These groups host quarterly technical webinars that are offered free of charge.

## Join Us

Join us today and take advantage of these exclusive benefits while contributing to the growth and success of our organization and society. Together, we can drive innovation and excellence in the energy industry.
