About CIGRE USNC

The CIGRE National Committee of the United States, established in 1921, is the National Committee and local representative organization of CIGRE in the United States of America.

We are proud to be part of CIGRE's global knowledge program of work.

CIGRE is the foremost global community for the collaborative development and sharing of power system expertise.

The community features thousands of professionals from over **90 countries** and **1250 member organizations**, including some of the world's leading experts.

At its heart are **61 National Committees** offering diverse technical perspectives and expertise from every corner of the globe.
